BALTIMORE HEART BALL

As we put the finishing touches on the 2017 Baltimore Heart Ball, we want to stop and thank you for supporting the American Heart Association. Without your support, we would not be able to impact the health of so many lives in Greater Baltimore. We have been working on unique auction items, a fabulous dinner and a fun, high energy evening of entertainment.

To make sure your 2017 Baltimore Heart Ball experience is unforgettable we have prepared the enclosed portfolio with all the details of your evening.

Should you have any questions prior to the event do not hesitate to contact Molly Ricely, 410-246-6714.

We truly appreciate your dedication and support to a mission that touches so many hearts! Thank you and we look forward to seeing you on Saturday, February 25, 2017.

Thank you!

Registration

Once inside, please make your way to the third floor where you'll see registration. You will be asked to provide your name and phone number to activate your BidPal Mobile Bidding number. You will be provided with the BidPal event specific link or you can download the app. You will then be asked for a credit card which will be swiped for a balance of \$0. Should you make a donation or win anything during the evening, the balance charged to your credit card will be shown at checkout. Your credit card information will not be stored after the Heart Ball. When registration is complete you can proceed to the hotel foyer for Cocktail Reception.

Open Your Heart

Open Your Heart is an opportunity to give a gift in honor or in memory of someone you love. At the end of the live auction, we will hear from our survivors of heart disease, our Faces of Heart, about how the American Heart Association has directly impacted their lives. Everyone in the room will have the opportunity to give a gift, which is 100% tax deductible, directly to the mission of the AHA towards research and education.

Faces of Heart

Could You Save Me?

This was not a question on Breanna Sudano's mind as a 13-year-old high school freshmen and star athlete. Thankfully, when she went into cardiac arrest after scoring the winning goal of her field hockey game, her coaches and parents in the stands could save her.

Could You Save Me?

This was not a question Keymar Green had ever thought of either. He became a life-saver after learning Hands-Only CPR in his high school health class. Little did he know he would have to use what he learned on his 5-year-old brother a few short weeks later.

Breanna & Keymar both Can Save You.

Could You Save Them?

These are just two stories, there are countless other lives just like Breanna & Keymar that have been touched by the work of the American Heart Association. That work is only possible because of donations by you! We hope you can join us and Open Your Heart to continue the lifesaving work of the American Heart Association.
